is 222 heart rate high. 222 bpm heart rate. 222 fifth heart shaped plates. 222 fifth heart shaped plates. 222 heart rate. 222 bpm heart rate. route 222 heart scale. heartbeat at 222. 222/112 heart rate. 222 hearst way. 222 hearst way. 222 heart rate. route 222 heart scale. 222/112 heart rate. heartbeat at 222. is 222 heart rate high

Beat game in under an hour. The gameplay took a second to figure out the details of the mechanic, 1st two bosses drag out a bit longer than they need to. Last boss was tougher. Pleasant little indie game.. Even though this game is already very cheap, I can

---

only really recomend this game when it's on sale. All the levels are very short, the difficulty is inconsistent, and the controls are lacking, which can make certain puzzles more frustrating than they should have been. it's only a 4/10 at best., so only grab if the genre appeals to you.. Short and Sweet platformer. Played it sparingly in a day and completed it. Overall the only thing I didn't liked was the fact that there was only one music track for the most part, but even then you don't grow tired of it. If you like platformers and need to scratch that itch, go for it.. This game is super fun but over half of it is inaccessible to me. The fourth boss (M40) is just too difficult, I can't make it any farther, and that makes me sad because this game is so fun, but just too hard for me. =( The casual tag is very very misleading. Pretty much the entire fourth zone had me going bald. It's still fun but super hard.. I beat this game in a little over an hour, so let me tell you what it's about. Take Celeste, remove some of the polish, and design the levels like you're making an IWBTG fangame (meaning: tedious, repetitive and with an overabundance of deadly obstacles), and you have this game. Granted, I'm a bit of a sucker for needle games, so long as they aren't too egregious. Not another Needle Game, Kill the Guy and Kamilia 3 are some of my favorites from the genre. But even in that regard, this game falls short on the difficulty curve and leans a little too hard on the tedium. It's only \$2, and the value you get is pretty decent, so I do recommend it, but you should know what you're getting into. Basically, if you can't get past the first world of Solgryn's I Wanna Be the Boshy on "Totally Average" mode, you'll probably want to pass on this.. Beat game in under an hour. The gameplay took a second to figure out the details of the mechanic, 1st two bosses drag out a bit longer than they need to. Last boss was tougher. Pleasant little indie game.. This game is super fun but over half of it is inaccessible to me. The fourth boss (M40) is just too difficult, I can't make it any farther, and that makes me sad because this game is so fun, but just too hard for me. =( The casual tag is very very misleading. Pretty much the entire fourth zone had me going bald. It's still fun but super hard.
